

To the FDA:

2/28/99

I send this letter as a consumer of **healthcare** services to register my concern and disapproval of the Memorandum of Understanding as published by the FDA on January 21, 1999.

The Memorandum of Understanding is a direct threat to the art of pharmacy compounding and is of concern to every consumer of **healthcare** services and products.

FDA is an agency of the U.S. Government that purports to be the "watchdog" for the consumer. However, as a governmental agency, the FDA also has a responsibility to be accountable to the people. 2/27/99 11:50 AM

The MOU must be amended!! In its present form, the MOU severely restricts my rights as an individual to obtain the **healthcare** services and products from the provider of my choice. The MOU should be amended so that there are no restrictions to the delivery of a compounded medication prescribed for me, regardless of where I may live or may travel. *I recently received a compound that has helped me with problems I was experiencing. Amending MOU will be so helpful to many like myself. Thank you*
